OK In Health Monthly E-Magazine - Fall 2010

Publisher's Message

Welcome to the OK In Health Autumn E-Magazine!

We are very excited to announce that our new website will be launched very soon. We will be emailing you an update about this shortly.

Thank you for all the members who offered to help volunteer at the South Okanagan Expo. Welcome to all our new members. Next we will have a sponsor's table at the [Deepak Chopra](#) events and a booth at the largest seniors trade show in Western Canada, the [Seniors Symposium Wellness Fair](#) Penticton.

It's that time of year again and begins with Fall fun classes and workshops! Fall class registration is now underway. Visit our event calendar page on OK In Health's website for more details.

As an Official Sponsor, OK in Health is pleased to announce: An Afternoon with Deepak Chopra in the Okanagan Presented by the Autopoetic Ideas Festival Penticton Trade and Convention Centre Sunday, October 17th, 2010 at 2:00 pm Tickets available...
[CLICK HERE FOR FULL DETAILS](#)

In this issue, we also have some new wellness articles from our OK In Health columnists, new recipes, and wellness tips too...

Wishing you all a Spectacular Fall,
Yours In Health,
Maria Carr and The OK In Health Team [[see our OK Staff and Team's members](#)]

Back to School - Healthy Lunch Box ideas

A healthy lunchbox can help to improve your child's attention, behaviour and learning throughout the day and into the afternoon. It should provide one third of your child's daily requirements of nutrients. Here are some healthy snack ideas for back to school. Organic Bananas, Yogurts, Sliced Carrots, Boiled egg, Multi-grain sandwiches, Whole-grain breads or crackers, Light canned tuna fish, Cooked pasta, Raw vegetables that can be cut into slices, Fruits. Encourage the kids to make sandwiches with whole-grain breads or bagels; tortillas; or colorful wraps. Try different sandwich fillings, such as tabouli mixed with feta cheese in a pita pocket, or a veggie burger. To avoid food warming up and risking our kids' safety it is important to ensure our children's lunch boxes stay chilled. Juice and water can be freezed and put it into your lunchbox to keep your food cool.

Are you tired of putting the table down?
This has 2 tables

Recipes

Blissfully Delicious! - Shannon Bliss's OK Recipes Column

Shannon's Salsa Recipe

2 or 3 large tomatoes – diced
1 or 2 bell peppers (yellow, orange, red or green) - diced
1 onion – diced
1 jalapeno pepper – diced finely with seeds
½ fresh squeezed lemons
1 or 2 tablespoons olive oil
1 or 2 cloves of garlic – to your taste
Cilantro diced – as much as you like
Sea salt and pepper to taste

Mix together in a bowl, adjust spices to your tastes, refrigerate at least one hour before serving.
Enjoy!

This is a refreshing addition to many of my meals or just as a health snack with some organic corn chips.
To make this colourful use a variety of yellow, green and orange peppers.

This recipe is from the Bliss kitchen.

OK Raw Food Recipes Column! - by Cleo Murray's OK Raw Foods Recipe Column

CAULIFLOWER MASHED POTATOES

2 – cups cauliflower
¼ - cup raw macadamia nuts
¼ - cup olive oil
1 – tsp. sea salt
1 – very small clove garlic (peeled)
Freshly ground black pepper to taste

In a food processor, combine all of the ingredients, except the pepper and process until the mixture looks fluffy, like conventional mashed potatoes. Top with freshly ground pepper. I personally like to add chopped cilantro to mixture along with the pepper. Yummm! TO LIVE FOR

Alert!

One of our OK members wants to kindly inform you of a scam. She got a phone call from someone stating she won the grand prize of a trip. They told her she had entered a contest at a Kelowna health show. All she had to do was cover the taxes.... We have notified the police and thank our member for sharing this with us.

Wellness Tips

Drying Fresh Herbs

To dry fresh herbs quickly, wash and place them between paper towels, then microwave on the highest setting for two to three minutes. If they are not yet dry, run the microwave for another 30 to 60 seconds and check again. Repeat until herbs are dry and crumbly. Date, store and use within one year for best flavor. Dried herbs are stronger than fresh, so just 1 teaspoon dried equals 1 tablespoon fresh for equal strength and zest.

Save your Back!

Did you know that good posture helps to protect your back? Other ways to avoid back pain include regular exercise, proper lifting and stretching. When you lift objects from the ground, use your legs instead of your back. When lifting with your upper body, keep your back straight and allow your arms to do the work.

Heirloom Seeds. Many seed varieties available today have been developed for the commercial grower. They are bred for qualities such as uniformity and long shelf life; taste is usually the last consideration. Heirloom seeds have been passed down through the generations and are cherished for their outstanding characteristics, such as superior flavor, vibrant color, adaptability and vigorous growth. All the seed we offer is open pollinated, untreated and free of genetic engineering. Planting and seed saving instructions are provided. See your Local Health Stores.

Bat Houses Did you know that one brown bat can catch 600 mosquitoes an hour? The Cedar Bat House provides a very specific roosting environment which attracts these misunderstood insect eaters.

Push Lawn Mower Not like what your father had..! Today's push lawn mower is lightweight and easy to use. They're good for the environment and they're good for your yard, snipping the grass for a clean, quiet, precise cut.

Organic Lawn Care Organic lawn care takes a holistic, preventative view rather than reacting to various problems using chemical pesticides or herbicides. By building healthy soil many of the problems with lawns are solved, eliminating the need for poisons and harsh reactionary measures.

Composting Convert kitchen, yard and garden waste into soil-nourishing organic matter with our backyard tested compost bins and supplies. Decreasing household waste and building your soil has never been so easy!

Turn off lights and equipment when a work area isn't being used. Even better, if you don't need them, don't turn the lights on in the first place. Natural light saves energy and is easier on your eyes. And a computer that runs 24 hours a day uses between \$75 and \$120 worth of electricity each year. You can save about \$15 on your annual energy bill with an ENERGY STAR qualified computer in standby mode.

Install a low-flow showerhead Install a low-flow showerhead with a shut-off lever. This do-it-yourself project takes only minutes. But it delivers big savings in water consumption and water heating, because it allows you to interrupt water flow. A low-flow showerhead uses 60% less water than standard fixtures.

Avoid using chemical pesticides or fertilizers Avoid using chemical pesticides or fertilizers on your lawn and garden. Chemical fertilizers are a source of nitrous oxide, a GHG. Try using organic products - they are better for our environment and healthier for your lawn and your family.

Food and Our Environment 'Carotenoids in fresh food can actually offset the effects of exposure to environmental toxins such as air pollution and cigarette smoke', says David Kitts, professor of food, nutrition and health at the University of British Columbia." (orange fruit and vegetables). Always try and wash your fresh foods before eating or peeling.

Community Events at your fingertips!

Have you ever wanted to attend a community event, health show, weekend retreat, workshop, movie, fitness class, or find a local practitioner or support group?

Well, OK In Health is a website that is a great resource for finding all this.

OK In Health is an on-line Magazine that offers a variety of integrative information for our physical, emotional, and spiritual well-being. The Publisher, Maria Carr started OK In Health in 2004, as she felt there was a need to have one place to help communities to connect. She felt that it was better to hear about an event before rather than afterwards. Since then, the website has become the main place to find community events, workshops, fitness classes, wellness information, contests, articles, and more. We have the lowest rates around with the highest networking results. OK In Health now has a team that work on the website and newsletter and it also is supported by our amazing 3,000 members. www.okinhealth.com
